EDITORIAL COMMENT’S on revised paper (if any)	Authors’ response to editor’s comments
<p>1. Mention the key literature that were consulted before the variables for the questionnaire was developed and their significant contributions.</p> <p>2. There should be more discussions of the results. Engage in critical and scholarly discussions by comparing and contrasting the results with the existing literature.</p> <p>3. Remove URLs from the in-text citations.</p> <p>4. Merge the introductory section as one unit with the research objectives, questions and significance of the study. All of the sub-sections should be woven as one unit under one heading 'introduction'.</p>	<p>1. Changes are made and highlighted in yellow.</p> <p>2.
