PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | <ul style="list-style-type: none">- Misplaced sentences should be corrected into their right position- Ethical approval should be expressed after conclusion- | Thank you very much for your valuable contribution to this paper. _As have been attached on the tracked document, we have made the necessary additions. -We would rather wish to leave it under the methodology under this circumstance. |
| Minor REVISION comments | <ul style="list-style-type: none">- It is better if you write the exact P value, i.e. P=0.003 rather than writing P<0.003 in abstract and in the body- There are many spacing error those should be corrected- Invisible formula in sample size determination | <ul style="list-style-type: none">- The p value are reported as revealed in the results analysis. It's a standard to report p=0.000 as p<0.001. That is to say that those that have are p<0.001 are all p=0.001. T- This errors have been fixed.- Done. |
| Optional/General comments | <ul style="list-style-type: none">- Generally the manuscript is good | Thank you |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
