PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Dear Authors This is an interesting and well-done study, characterizing 87 patients diagnosed with CAP admitted in Chattogram Medical College Hospital. You broadly compare your results with the findings of other authors in the discussion. The manuscript is written in a clear and understandable way. In my opinion, there are some issues and minor revisions needed prior to accept the manuscript for publication, specified below.	
Minor REVISION comments	1. Please check your Keywords with the Mesh database. It seems that the keywords need some revisions. 2. Add company and country names of all used materials, kits, culture media, and so. 3. Please make sure that every section of the manuscript is in accordance with the Guide for Authors of the journal 4. The reference list must be completely re-written according to the journal style	1. Done 2. Done and removed some unnecessary description 3. Done 4. Done
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
