PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|--|
| Compulsory REVISION comments | The topic is interesting. However, there are major objections: 1. There are grammatical errors that need to be corrected 2. The results should provide tables including patients' characteristics 3. The final outcome should be determined and shown in either charts or tables in both groups. 4. The discussion part is not completely written and is mostly devoted to the results of the present study. Insufficient comparative data are present. | Revised for grammatical errors Results revised Final results are detailed in the article Discussion section has been reworked. It was supported and compared with the literature. |
| Minor REVISION comments | None | None |
| Optional/General comments | It is recommended to rewrite the paper to be more attractive, particularly in the results by tables and charts | The article has been revised and revised. |
