

Review Form 1.6

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_82776
Title of the Manuscript:	The Action of Adrenergic Agonists and Antagonists in the Present of Bupropion in the Vta Nucleus on Morphine Withdrawal Syndrome on Episodic Behaviors in Rats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajob.com/index.php/AJOB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>In this study the authors considered the short-term interaction of bupropion, adrenoceptors' proprietary agonists and antagonists (phenylephrine, prazosin, clonidine and yohimbine) in intra-ventral tegmental area (VTA) injection on naloxone precipitated withdrawal symptoms.</p> <p>The article may be of interest to the readers of this journal, however their writing, grammar and spelling do not allow to understand their meaning, so I recommend that the authors seek the help of a native English speaker to improve their manuscript and make possible the reading and understanding.</p>	<p>Dear Reviewer At your request, the article was completely reviewed. Thank you for your attention</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
