

## Review Form 1.6

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_88444
Title of the Manuscript:	200TH BIRTH ANNIVERSARY OF THE GENETICS FOUNDER GREGOR MENDEL. ART MEDALS.
Type of the Article	Research Article relating to Scientific Circulation of medal Art

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjast.com/index.php/CJAST/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>The following corrections should be taken into account by the author before taking into consideration for publication:</p> <ol style="list-style-type: none"><li>In Keywords, include <b>numismatics</b>, <b>Genomics</b>, bonistics, <b>phaleristics</b>, <b>philocarty</b></li><li>The MSC No. should be given after Keywords.</li><li>In Section 2, collection of Materials has been mentioned, but nothing is stated about the method. This is to be clarified.</li><li>It would have been better, if some discussions of work of Mendel on genetics have been done in brief.</li><li>G. Mendel's work on genetics earned him many medals which have significant art. But the types of work on genetics which earned him the medals are not discussed.</li></ol>	<p>Thank you very much!</p> <p>Numismatics and genomics are added to the keywords, but bonistics, phaleristics, philocarty are not considered in the article. The research methods used in the article are mentioned. The section has been updated. It should be noted that the medals dedicated to Mendel were the original subject of the study. As for the biography and discoveries of Mendel, they are given very briefly so as not to repeat the numerous publications dedicated to the scientist. The main achievement of Mendel was the discovery of the laws of heredity, which is reflected in the article. This outstanding discovery led to the appearance of numerous stamps and medals dedicated to the scientist.</p>
<b>Optional/General</b> comments	<ol style="list-style-type: none"><li>If all the above points are clarified, the paper may be considered for publication.</li></ol>	<p>Thank you very much!</p>

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
