<b>Compulsory</b> REVISION comments	<p>This is an excellent manuscript.</p> <p>It makes a real contribution to knowledge on the topic. I recommend publication.</p> <p>However, in the discussion section, there may be more mention of the existing literature and of the impacts of the current manuscript.</p> <p>Apart from these minor comments, <b>I recommend publication.</b></p>	<ul style="list-style-type: none"><li>- Few existing literatures are added as per suggestion from reviewer under Discussion section.</li><li>- The overall impact of the paper is that it provides a present distribution map of WRV which can act as baseline information for the future study, since no work particularly on WRV had been carried out in the past. Also, it provides the information on habitat requirements or preferences of WRV, meaning it can tell us about the suitable conditions for the survival of the species. This has been added in Discussion and Conclusion section.</li></ul>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
