

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Chemical Sciences</a>
Manuscript Number:	Ms_AJOCS_84948
Title of the Manuscript:	Structural Characterization, DFT, Molecular Docking and Cytotoxic Studies of Metal (II) Complexes Derived from Thiosemicarbazide
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The MS can be accepted after some revisions as in following: -The English of text must be polished during the text. Some important results must be added into abstract and conclusion. -Introduction is very brief. It needs more literature survey on similar reports in recent years. -The authors are recommended to suggest a mechanism for antimicrobial results based on references in this direction. -a comparable table between the current results in antimicrobial and cytotoxicity with some recent reported results. -more discussion on molecular docking is recommended. -UV spectral of ligand and its complexes in a figure as overlay must be added into related section.	Thank you reviewer for valuable comments. As per reviewers comments all queries are attended in the manuscript, the antimicrobial and cytotoxicity results are rectified with comparable studies
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
