### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajorr.com/index.php/AJORR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>a) Improve the introduction with more information about the military activity e how it can promote injuries.</p> <p>b) Figure 1 is impossible to read. I suggest making it bigger and/or put it as an attachment to the manuscript.</p> <p>c) Improve the discuss section making the correlation between the manuscript finds and what the literature shows about military injuries.</p> <p>d) Insert the titles in tables 1 and 2 as the author did in table 3.</p>	<p>a) we have added the information about military activity and how it can promote injuries in the 2<sup>nd</sup> paragraph</p> <p>b) we have made the figure 1 bigger</p> <p>c) we have added more explanation in the discussion section</p> <p>d) we have put the titles on the top of the table as we did to the table 3</p>
<b>Minor</b> REVISION comments	None.	
<b>Optional/General</b> comments	None.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
