PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<p>ABSTRACTS I propose to include the objective of the study. For example. " The objective of this work is to evidence the influence of socio-cultural beliefs in the management of cases of Tibial Hemimelia in constrained region ..."</p> <p>The methodology used (sample selection, observation, etc.) must be addressed so that the procedure followed in the observation of the cases is understood and then mentioned, in Results, what was observed. Therefore, a section of METHODOLOGY and RESULTS should be included.</p> <p>The photos are good and show what you want to show</p> <p>REFERENCES Assess the updating of the references with citations from the last five years.</p>	<p>Noted</p> <p>Okay</p>
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
