PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Discussion needs to be more elaborated and effectiveness of this study needs to be assessed in detail regarding success and failure	Well, we think the discussion was elaborate and simple. No complications were recorded. All surgeries done on the patients were all successful.
<u>Minor</u> REVISION comments	Methodology should be in detail and explained regarding sample size and tests used	Methodology was retrospective. Data was gotten (sampled) for a period of 36 months (November 2018 – November 2021). This serves as the sample size. This study was retrospective. We made use of descriptive analysis (frequency, mean). No inferential analysis such as correlation, regression was used.
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	Nil.
