

Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_76820
Title of the Manuscript:	MODELING CORONAVIRUS PANDEMIC USING UNIVARIATE AND MULTIVARIATE MODELS: THE NIGERIAN PERSPECTIVE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Introduction chapter largely presents the history of the pandemic outbreak, which does not make much sense for the article. Much of the information can be removed or presented much more concisely. In chapter 2 Methodology for Analysis many theoretical aspects are presented with very few references to the variables understudy (which are not presented). Additional information must be entered between the work variables and how they are used in the methodology specially in ARIMA and ARIMAX model.. The whole chapter has to be rethought. In chapter <i>Result and Discussion</i> more explanation should be provided related to statistics data. No limitation of study is presented or future work.	Made revision
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
