Compulsory REVISION comments	The paper An Investigation into Social and Cultural Pressures of Vulnerable Women using Survival Analysis with Covariates is written clearly, concisely and technically correct. The significance of the subject of matter is clearly stated. Title of the paper is clear and appropriate to the paper's subject matter. Abstract, aims and key words are proper. Autor(s) sought to model the time to the first birth interval from marriage for women in Nigeria, and identify the various factors affecting this timing. An original descriptive survey research was design for this paper and it is appropriate applied. The Kaplan-Meier estimator was used to estimate the median survival time, while the log-rank test was used to test the significance of the categories of the covariates used. The obtained results are adequately presented. Conclusions are correctly and logically derived from the presented data and results. Therefore, I recommend that Editor board of Journal of Education, Society and Behavioural Science accept Manuscript Title: An Investigation into Social and Cultural Pressures of Vulnerable Women using Survival Analysis with Covariates for publication	Authors have read and accepted inputs from reviewer
