

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Pediatric Research</a>
Manuscript Number:	Ms_AJPR_76101
Title of the Manuscript:	Efficacy of Budesonide, Epinephrine and Salbutamol Inhalation for Treatment of Transient Tachypnea of Newborn
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments:  1. Efficacy of Budesonide, Epinephrine and Salbutamol Inhalation for Treatment of Transient Tachypnea of Newborn.  2. The recruited cases were randomly assigned into four groups equally.	The volume of nebulization is different in different group, so, it's an open labelled study, which increases the chance of bias.  1. Type of study should be mentioned in the title.  2. How allocation concealment was done?  3. Time to full feed... nothing mentioned about the feeding policy in methodology section and what is the exact duration difference in hours should also be mentioned.  4. Discussion needs serious revision. Discussion is not just comparing your finding with others, give proper explanation and theory how these results achieved.	1- Edited. 2- done 3- done 4- done
<b>Minor</b> REVISION comments <b>Table: 5:</b>	1. Table 5: put heading in the 1 <sup>st</sup> column.  2. What is TTN score change? In 2 <sup>nd</sup> half of the table.  3. Table 6: how many times ABG was done, is it after every nebulization? What is before and after treatment mean here?  4. Table 7: SpO2 levels are of no use if the Pressure and Fio2 is not mentioned.	1- Written. 2- The changes of the table's lower rows. 3- done 4- done
<b>Optional/General</b> comments	Write down a paragraph on what's the strength and weakness in your study in end of discussion.	Added
