PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Page 1 Improve Title MS need modifications because from title an reader would await other things and not a detailed description of methodology (also if important, a good book describe these...) Lot of grammatical mistakes and incorrect use of prepositions Hence, this reviewer indicate revision this MS for publication.	The title is a novelty approach toward the researcher's conceptual idea of his perceived scientific advances. Authors carried out the research in accordance with the available laboratory equipment. Authors argued that scientific writings are mostly logical, hence an approach toward problem solving.
