General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrcs.com/index.php/AJRCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ol style="list-style-type: none">1. In the title, composition may be an appropriate word to use instead of analysis2. Why is ash not included in the proximate analysis under results?3. But fibre content was not analyzed in this study and discussion was made on fibre content?4. Consistency in the reference is needed. Some names are written in full while some abbreviated. The same thing was noticed for journal names. Please write only Initials of names after surnames and also, write out the journal names in full	<p>Correction effected. Ash was not included in the study because it was not in the scope of study</p> <p>There was an omission of the carbohydrate content in the literature which has been corrected</p> <p>Corrections done. Thank you so much</p>
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
