### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrcs.com/index.php/AJRCS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"><li>Very old references are cited by the author please add some recent studies.</li><li>Add the reference of repellency test rating scale.</li><li>Results are written on the basis of mean. Author should use Completely randomized design for the analysis or make the graph of data and calculate SEM <math>\pm</math> from google calculator and insert the error bars.</li></ul>	<ul style="list-style-type: none"><li>An attempt will be made at updating the references as much as possible.</li><li>Specified reference will be added.</li><li>The experiment was carried out in CRD. A graph may not be appropriate for this kind of data, but will look into it.</li></ul>
<b>Minor</b> REVISION comments	Please check the pattern of reference writing in text as it is not common Other minor corrections are mentioned in text (Manuscript)	This is the pattern of reference writing that I'm familiar with, but could change it.
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
