General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrid.com/index.php/AJRID/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This paper is very well written and contains sufficient information. It is easy to read.</p> <p>The only issue is that the conclusion is too sh.ort and perhaps a discussion section would have been nice to have regarding the results and findings for Nigeria.</p> <p>The graph diagrams in the document need to be improved/ resized because they are too small.</p> <p>Also there are some small typing errors. I strongly suggest to do some proof reading of the paper and adjust the diagrams and references too. The tables also need to be improved.</p>	<p>Thank you for the first comment.</p> <p>Conclusion has been improved More discussion with respect to the results and findings added.</p> <p>List Of Figures And Tables Provided In A Saparate Documents</p> <p>Typo errors checked and proof-reading done.</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
