PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript needs language editing before publication Introduction needs much clarity with recent references Materials and methods needs to be reframed with suitable references and validation procedures with statistical significance rather than mere bar chart	Corrections have been made as suggested. Certain references have been introduced in materials and methods properly as suggested.
Minor REVISION comments	The manuscript is lodged with grammatical error, spell checks and space checks Conclusion needs to be drafted and include only the salient findings and summary rather than unwanted scripts	Grammatical and typographical errors have been corrected. Conclusion have been modified as suggested.
Optional/General comments	Map could be prepared and submitted with any free GIS software Not a mere copying from Google platform which dissociates the quality of journal	Edited maps haven submitted in the manuscript.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
