Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The submitted manuscript is not a review article as stated on top</p> <p>The Title is not informative and should be reworded to encompass the aim of the study</p> <p>In the Abstract "RAS" should be changed to "RAAS"</p> <p>The sentence "Thirty-two animal rats participated in the study" needs rewording since the word "animals" is redundant and animals to do "participate"</p> <p>The authors need to decide whether to use "renin-angiotensin system (RAS)" or "renin-angiotensin-aldosterone system (RAAS)" and be consistent throughout the manuscript</p> <p>The Methods section is missing any mention of ethics approval, and the procedure of the operations</p> <p>The company and catalogue number of the primary antibody against proliferating cell nuclear antigen (PCNA) needs to be included</p> <p>The Discussion is devoid of any possible mechanisms for the results obtained. The only reasons provided are limitations in the selection of the animals and this does not provide any useful basis for further experiments.</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
