Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Part 1</p> <p>In the summary he removes the subtitles study design and place and duration of study without removing what is written in front of his subtitles which will save a line. In keywords it removes SCA and SCT. Both are in SCD.</p> <p>In the introduction he must respect the order, the world, Europe then Africa and finally Nigerian. Put the first two sentences in this order.</p> <p>the methodology should be read by a biologist to be sure about type of machine and type of biological procedure.</p> <p>In the methodology can he talk about logistic regression without doing the odds ratio calculations?</p> <p>In the discussion he does not speak succinctly of the limits of his work.</p> <p>The drafting of references is done according to vancouver or harvard?</p> <p>Part 2 and 3 nothing to report.,</p>	<p>1. Methodology: A hospital based cross-sectional study of 200 age and sex matched SCD patients divided equally into 2 groups of sickle cell anemia (SCA) and SCT with 100 controls with HbAA. All participants had blood hematology, chemistry and urine albumin/creatinine ratio (UACR) done. The study was done in Obafemi Awolowo University Teaching Hospital, Ile-Ife, Osun State and Federal Medical Centre, Owo, Ondo State, between May 2016 to April 2017</p> <p>2. Keywords:, SCD, Microalbuminuria, CKD, Renal disease</p> <p>3. Sickle Cell Disease (SCD), an autosomal recessive genetic disorder that affects millions of people throughout the world. Approximately 5% of the world's population are healthy carriers of the sickle cell gene. The disease is prevalent in countries bordering the Mediterranean Sea, especially Italy and Greece, it is also prevalent in the Middle East, Central India and Africa, most especially in Nigeria.</p> <p>4. The references are done according to Vancouver referencing style as requested</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
