### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrn.com/index.php/AJRN/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Put all scientific names in italic; the first time appear the CKD, is important add the signification; review all the references, it is important add the reference before the point. The correct sequence is add the reference and after add the point; ; the first time appear the CVC is important add the signification; the first time appear the BMH is important add the signification; the first time appear the AVF is important add the signification; add the A5mls term signification; add space between the last word and the point; add space between the words, there are many together words; review the correct translation of the words, for example: Meropenum – the correct write is Meropenem; Check that and some places where were added points, is correct add a comma; whats means the expression “NK;HNKLNK” on topic ethical clearance?; The author's written the phrase: 'The Central Zone Health Research Ethics Review Committee (CZHREC) approved and granted certificate with Ref No.002/2020 (Appendix I)’, I didn't find the appendix; I suggest update the references, there are many old references; Do a English review.	All the suggested correction have been done
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:
