PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Title needs modification to make it compact2. Sample size calculation needs elaboration3. Some parameters is a vague term , needs elaboration4. Study design needs elaboration5. All parts of methods needs references6. Data in tables 1-3 may be grouped in one table for economy of printing space?7. Heading 3.6 is confusing , kindly clarify8. More references required in discussion9. 24 out of 31 references are older than six years	<ol style="list-style-type: none">1. Done2. Not necessary because, it's a controlled animal study3. Nothing like a vogue term. Cytoplasmic complete is same thing as cytoplasmic droplet.4. The study design is ok.5. It was done.6. Table 1-3 are for different parameters so, nothing wrong with separating into different tables
Minor REVISION comments		
Optional/General comments	Very good attempt on an important research topic	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
