General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for the Peer Review process, reviewers are requested to visit this link:

(<https://www.journalaprij.com/index.php/APRJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are NO compulsory comments	
Minor REVISION comments	The article is interesting and contains data useful, both for farmers and for scientists. I think it would be useful for readers to expose also, basic economic data for the experiment. As the author recommends, the study must be continued in other locations, for several years, with more factor interactions and also, to test the crop quality. After the correction of the English language small issues.	Thanks, we will consider the economic analysis in future articles Grammar has been corrected
Optional/General comments	For the authors, I recommend the use of Grammarly.com to improve the writing of articles. It is free and easy to use. Thank you!	Noted with thanks, we have downloaded and already using it.

PART 2:
