

Review Form 1.6

Journal Name:	Biotechnology Journal International
Manuscript Number:	Ms_BJI_75688
Title of the Manuscript:	Screening of yeasts other than Saccharomyces for amino acid decarboxylation
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The research article describes the research aims, as well as a detailed explanation of the research methodology. The results are presented in specific tables, as well as an explanation of the results. The bibliography is mostly recent. The work, in general, provides scientific information that could lead to the development of more projects in the same line of research.	Thank you for your valuable comments
Minor REVISION comments	The tables showing the results should have at the bottom the description of each acronym shown at the top of the tables. Although each acronym is described in the text, it is important for the reader to be clear about the information being displayed.	Amended as indicated
Optional/General comments	It would have been interesting to be able to visualize the agarose gels.	Noted

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
