

Review Form 1.6

Journal Name:	Biotechnology Journal International
Manuscript Number:	Ms_BJI_88649
Title of the Manuscript:	Effect of Exogenous Salicylic Acid on Sugar Metabolism in Tomato Seedlings
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction. The author should describe in more detail the benefits of SA, without use the phrase: "and so on".</p> <p>In the last paragraph the author should remain us the aim of the paper.</p> <p>Conclusion. According to the results, what does the author suggest?</p>	<p>Thanks a lot for the reviewer's suggestion. We modified the contents of the response.</p> <p>In the last paragraph of introduction, the aim of the paper was "It would provide a basis for studying the regulation mechanism of sugar metabolism and a theoretical basis for spraying SA in production practices to control growth and development of tomato seedlings".</p> <p>In the conclusion, we added the suggestion for the use of SA in tomato production practice.</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No.
