## Review Form 1.6

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The type of article being unspecified, assuming the fact that this would be a Case Study, if may I, the authors can adopt the following changes.</p> <p>1. The <b>ABSTRACT content</b> needs no change. Proper <b>insertion of full stops at the end of the statement</b> is recommended. Also, kindly <b>capitalize the “h” of the below statement</b>, since it denotes the beginning of the statement.</p> <p><i>here we report the observation of a patient admitted for a complete atrioventricular block, with reversible mitral and tricuspid regurgitation after implantation of a pace maker</i></p> <p><b>2. INTRODUCTION</b> If the authors could provide more/detailed information regarding the <b>Diastolic valve regurgitation, causes, and also does it result in any diastolic heart failure, results in diastolic and systolic murmurs and also how is this condition of the heart different from the rest,</b> than it would be beneficial. The authors have mentioned the Objective of the Case Study, which is good.</p> <p>3. A <b>LITERATURE SURVEY</b> section would be preferable after Introduction as it would discuss about the existing work done on the similar topic, (besides from what is mentioned in the DISCUSSION section).</p> <p>4. <b>CASE REPORT</b> section needs no change.</p> <p>5. Let the FIGURES be categorized under the <b>RESULTS</b> section.</p> <p>6. <b>DISCUSSION</b> and <b>CONCLUSION</b> needs no change.</p> <p>7. <b>CI DISCLAIMER</b> is okay.</p> <p>8. <b>REFERENCES</b> need no change.</p>	<p>-We added modifications to final version of manuscript , thank you for the revisions</p>
<b>Minor</b> REVISION comments	-	-
<b>Optional/General</b> comments	<p>Best Wishes to the authors for their future endeavors!</p>	-
