**PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>The paper is generally well written and structured. The problem was focused clearly and explained well. Extensive literature was done and it was appreciable</p> <p>Please focus the abstract on your study and your results. The author noted with evidence that VTE is estimated to be the second most common medical complication shown that importance of the study focused.</p> <p>The study is highlighting the contribution of foods in preventing VTE as evidenced based.</p>	<p>The paper is generally well written and structured. The problem was focused clearly and explained well. Extensive literature was done and it was appreciable</p> <p>Please focus the abstract on your study and your results. The author noted with evidence that VTE is estimated to be the second most common medical complication shown that importance of the study focused.</p> <p>The study is highlighting the contribution of foods in preventing VTE as evidenced based.</p> <p><b>Answer:</b> Thanks.</p>
<b><u>Minor</u></b> REVISION comments	<p>The author may even collect and mention the fruits associated in preventing VTE.</p>	<p>The author may even collect and mention the fruits associated in preventing VTE.</p> <p><b>Answer:</b> literally every known fruit is rich in polyphenols (antioxidants) and Vitamin K helps prevent VTE and stabilize anticoagulation. Anyway, I have added some mention of specific fruits that are specifically rich in healthy flavonoids. (Kiwi, blueberries, cantaloupe, cherries, apples, cranberries, acai fruit, dragon fruit, citrus fruits, grapes, raspberries, papaya, mango). A list of super vegetables is also being added.</p>
<b><u>Optional/General</u></b> comments	<p>The topic chosen for the study is appropriate ,clear and concise. The author have collected a unique dataset.</p>	<p>The topic chosen for the study is appropriate ,clear and concise. The author have collected a unique dataset.</p> <p><b>Answer:</b> Thanks.</p>
