PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <u>Compulsory</u> REVISION comments | | |
| <u>Minor</u> REVISION comments | Risk prediction of cardiovascular disease and Diet as preventive tool: Erectile Dysfunction At Page 2, remove discussion; and add subtitle likely Obesity and role of Bioactive compounds in Diet | Risk prediction of cardiovascular disease and Diet as preventive tool: Erectile Dysfunction Answer: The risk prediction of cardiovascular disease is only a miniscule part of the manuscript and hence cannot be in the title. The main objective is to expose the role of diet in the prevention, delay in progression and even reversal of ED via modulating the diet. The title has been changed to , 'The Role of Diet in the Pathogenesis of Erectile Dysfunction' – to better explain the manuscript. At Page 2, remove discussion; and add subtitle likely Obesity and role of Bioactive compounds in Diet. Answer: Removal of Discussion will significantly alter the layout – obesity is already included. The bioactive compounds involved in the pathogenesis of ED are mentioned in the various food elements discussed. |
| <u>Optional/General</u> comments | | |
