<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>In this article; it was aimed to gain knowledge and competence to help us tackle energy crises by using new construction techniques and materials. The importance of using new sustainable insulation materials (resources) that are far superior to traditionally used bricks was emphasized. In my opinion;</p> <ul style="list-style-type: none"><li>• The variety of these materials could have been explained more broadly,</li><li>• Comparative evaluation could have been made with examples from some other countries of the world,</li><li>• The author used 12% internet, 1% printed resources. In the bibliography, more sources from the European and American scientific world could have been used together with local sources.</li></ul>	<p>Noted</p> <p>Revision made</p> <p>Done</p> <p>Revised</p> <p>Done</p>
