PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The article appears to be original research. However, the relationship research has not been adequately addressed. Choosing the appropriate relationship research method is of great importance. I should also point out that the references are insufficient. I recommend the following reference as a source for the author.</p> <p>Sisman and Bektas (2011)Linear regression methods according to objective functions, Acta Montanistica Slovaca, Volume 17, No 3, Pages, 209-217</p>	Additional References mentioned and relationship research has addressed
<u>Minor</u> REVISION comments	<p>The article appears to be original research. However, the relationship research has not been adequately addressed. Choosing the appropriate relationship research method is of great importance. I should also point out that the references are insufficient. I recommend the following reference as a source for the author.</p> <p>Sisman and Bektas (2011)Linear regression methods according to objective functions, Acta Montanistica Slovaca, Volume 17, No 3, Pages, 209-217</p>	Additional References mentioned and relationship research has addressed
<u>Optional/General</u> comments	I declare that it would be appropriate to publish it, provided that the above minor corrections are made.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
