

Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_86584
Title of the Manuscript:	Power Generator with Health Monitoring IoT Framework
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjast.com/index.php/CJAST/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Overall, all data is sufficient for exploring the knowledge of Health Monitoring using IoT Framework.	Some adequate data has been added.
<u>Minor</u> REVISION comments	If possible, for author to add literature review it will highlight the old research work done on Power Generators using Health Monitoring Systems. Author should give numbering to the reference s by that we can directly know that how many research papers they have used in their research work.	References and citations have been done in Harvard referencing style.
<u>Optional/General</u> comments	All research work gathered by author is very relevant and helpful for Health Monitoring IoT using Framework as we need natural source of energy for power generation as well as we need to take care of our health also so this article will be useful.	---

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u> No Ethical issues are fund in this manuscript.	Ok
