

Review Form 1.6

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	Ms_EJMP_84479
Title of the Manuscript:	Evaluation of in vitro activity of antimicrobial potential and phytochemical screening of methanol extract of Curcuma longa rhizome against some clinical isolates
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Comments are given in track changes: No.1,3,4,5,6,7,8,9,10,11,12,13,15	All these issues have been taken care of.
Minor REVISION comments	Comments is given in track changes: No.2,14	This has been addressed, <i>Candida albicans</i> is the yeast. The authors chose methanol because it has been identified as the most effective extraction solvent, giving the maximum extraction yield and phytochemical content.
Optional/General comments	Comment No : 16 Please see the attached file for following comments	Thanks, it is appreciated.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
