

## Review Form 1.6

Journal Name:	<a href="#">European Journal of Nutrition &amp; Food Safety</a>
Manuscript Number:	Ms_EJNFS_87926
Title of the Manuscript:	Microbiological Evaluation of Milk Beverages Produced From African Breadfruit, Tigernut, Coconut and Date Fruit
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalejns.com/index.php/EJNFS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	The manuscript is of great interest due to changes in the microbial load of milk during storage of African breadfruit, tigernut, coconut and date fruit. However I have some suggestions to improve the quality of paper: <b>In subchapter 2.3 Processing of raw materials</b> , African bread fruit milk was processed according to the method of [17].....should be written the authors also in text, as follows: <b>African bread fruit milk was processed according to the method of Okafor GI and Ugwu FC [17].</b> The recommendations above are in the case of all methods described in the paper: 2.5.2 Preparation of diluents, media and samples for analysis 2.5.3 Enumeration of microbial population 2.5.4 Characterization and identification of microbial isolates 2.5.5 Determination of coliform count	I agree with the reviewer's comments
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	There are no ethical issues in this manuscript
