General guideline for Peer Review process:

This journal’s peer review policy states that **NO** manuscript should be rejected only on the basis of ‘**lack of Novelty**’, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalejnfs.com/index.php/EJNFS/editorial-policy> )

PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Abstract</b> - The aim of the manuscript must begin with a verb and is described as the goal. Objectives are the steps taken to accomplish the long-term goals of the study.  The method section must be described - collection data, methods for analyzing data (focus group, interviews, observations, document analysis).  Results - highlighting for the reader observations. A short paragraph that concludes the results section by synthesizing the key findings of the study.  Justification must come before objectives.	-corrected  - Revised
<b>Minor</b> REVISION comments	-	
<b>Optional/General</b> comments	Writing issues	-Revised

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>  Yes.  ...”so we did not require rigorous ethical considerations.”- critical statement. All research involving human beings requires approval by the research ethics committee.	I deleted the line
