### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Well written manuscript. Requires minor formatting to text and language, In abstract no quantitative comparison of results is described  Division of results and discussion has to be revised since it just describes the data that are presented in the tables. discussion with comparison to other previous similar studies simply does not exist. statiscal analysis is not executed and p values are not mentioned (in spite of a clear description of the statistical tests and variables in the materials and methods division References can be more updated since the majority of the references has more than 5 years.	Noted  Revision made  Done
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:
