

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	MS_IJECC_84271
Title of the Manuscript:	Efficiency of Vetiver zizanioides and Vermiculite in Coir Wastewater Treatment
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The description of pilot scale is clear however the title of the manuscript is about efficiency – pls add some more information about economic and environmental effect not only about physico-chemical parameter. As you mentioned in the introduction – you need solution of low-cost and effective – could you also provide more information about the emission and waste after a proposed process - would it be possible to show all input and output (mass balance) for proposed solution – if not try to identify the barriers and challenges.	Comment accepted and considered
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	We authors have corrected the manuscript as mentioned by our honourable reviewer. The points that he has mentioned were valid and scientifically, his constructive comment have improvised the quality of this paper
