PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Please check again the text in English – some connection words are missing. (Ex: "Vegetation plays an important role in the global carbon cycle by sequestering a substantial amount of CO₂ from the atmosphere. Thus, creation of new plantation on degraded areas is a better option for carbon storage") Similar, some of the sentences makes no sense as they are (ex: "As some part of carbon stock appears as run-off in rivers and finally goes to reservoirs and lakes where it is degraded via aerobic/ anaerobic degradation into GHGs which are emitted to atmosphere, thereby causing global warming and climate changes")</p> <p>Suggestion: use "t C/ha" instead of "tonnes of carbon/ha".</p>	All suggestions are incorporated in the paper
Optional/General comments		

PART 2:
