PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>I congratulate the authors for the great effort made to achieve this work, beforehand I recognize that entering conflict zones and dealing with insecurity in forest regions is complete and for that, my most sincere respect.</p> <p>In another context, the document is correctly structured, it only remains to detail some points indicated in the text. In addition, it is recommended not to repeat ideas in the different sections of the writing, for which it is suggested to review and try to omit, restructure or mention the same ideas in a different way.</p>	Noted
<u>Minor</u> REVISION comments	If it is possible to include as annexes or in the materials and methods section a link or link to access your questionnaire, vector layers analyzed or complementary documents to which they refer.	Done
<u>Optional/General</u> comments	Describe a little more the management of the GIS and the layers used so that the reader has a better notion of the procedures that we follow to obtain their results. Build punctual and not extensive conclusions as presented in the corresponding section.	Noted
