PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	References aren't mentioned in the text. Exceptions are 5, 7 and 9, which are mentioned, but 7 is incorrect (there is another year of publication) – please check and correct. Include around 90% of the reference in Introduction.	I have corrected the reference and added few references in the introduction.
<u>Minor</u> REVISION comments	<p>What is INR? Why is it always writing differently, with TNR instead of Arial? Please check the entire text, because in some places you have single spacing, in other there is 1.15 pt.</p> <p>Also, there are a lot of missing spaces, especially between numbers, so that they are difficult to understand.</p> <p>Use equations in all cases, instead of writing them normal. At the end of each equation, give it a number, in order to identify it easier in the text.</p> <p>In the entire paper, but especially in 3.3, 3.4 and Conclusion, what kind of figures are those: 5,10,611.90; 14,29,148.40; 23,22,360.10 and many others??? It seems like some numbers are missing... they are not divided in groups of three, I can't explain this.</p>	<p>I have inserted ₹ (Rupees) symbol in the previously sent file and I don't know how it changed to INR, however I changed it to ₹ again. I have changed the font to Arial with 1.15 pt spacing.</p> <p>Changes are incorporated.</p> <p>Changes are incorporated.</p> <p>Changes are incorporated.</p>
<u>Optional/General</u> comments		Regarding the data, analysis and methodology part, I have gone through the entire part and there are no changes regarding NPV and BCR.
