

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_86864
Title of the Manuscript:	Influence of Sulphur and Zinc levels on growth and yield of Cowpea (Vigna unguiculata L.)
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	For better representation, it is very essential to present effect of an individual nutrient first than combined/interactive effect of treatments. So in present study if possible analyse the data in factorial RBD by taking an additional treatment for control. Than present the data in two-way table and rewrite the result accordingly. Improve the language of the write-up. Also improve the discussion part of the write-up. If author is ready to present the data in two-way table then revised the abstract, results and discussion and conclusion accordingly. Revised the introduction as per the comments given under manuscript. Revised the references as per the format of journal.	Revised
Minor REVISION comments	Introduction part required minor corrections/revision.	Okay
Optional/General comments	Modify the whole write-up as per comments for making paper meaningful and scientifically effective.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
