PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Introduction section is poorly written, please add background of the study and comprehend it with your study. Discussion is very poor. Please speculate the obtained results following the previously published studies and draw conclusion based on your data and discuss it in a comprehensive way. Also provide speculations drawn from your study, weakness points, and future directions, which can be drawn from your study. Provide clear methodology. Many parts are not elaborated properly. There are many typos, spelling, sentence and grammatical mistakes. Please revise the whole manuscript carefully and resent. I recommend substantial revisions first and then publication.	Revision amended Done revision Corrected Done
Minor REVISION comments	Add more references to improve the discussion	
Optional/General comments	Authors don't have any figure to support their findings. Please insert phenotypic figures related to characters reported in this study.	Done

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
