PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article deals with a topic of interest and importance to the scientific community. However, the basis of description of the methods as well as the process of statistical analysis leaves the discussion on the obtained results fragile. In this way, the data analysis must be redone, with the objective of giving greater weight to the information obtained.	Comment accepted and considered
