

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_88775
Title of the Manuscript:	Character interrelationship and principle component analysis of some black gram (Vigna mungo L. Hepper) genotypes under moisture stress deficit environment.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The "Introduction" should have some more text. One paragraph usually isn't enough for publication. The first time you use an abbreviation, spell out what the abbreviation stands for. Check the manuscript template and format the document according to it. The spacing and paragraph structure are inconsistent throughout the paper. I would switch to a different font as well.	I agree with this and have incorporated your suggestion throughout the manuscript.
Minor REVISION comments	Grammar usage needs to be checked and remedied.	Correct accordingly
Optional/General comments	The detail on the statistical analysis used was outstanding. This researcher evidently used these tools to create an effective manuscript.	Thank you for your valuable comment.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
