### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijmpcr.com/index.php/IJMPCR/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>This is a very good case report, with a strong biomedical approach. However, ethical approval by means of informed consent were not mentioned. This is a very important aspect to consider prior to publication.</p> <p>This is an excellent case report, very clear and easy-to-understand. However, ethical considerations like informed consent were not considered in this manuscript. It is my suggestion to include these aspects to ensure the respect of the patient's rights.</p>	<p>Noted</p> <p>Thanks</p>
<b>Minor</b> REVISION comments	<p>Grammar considerations should be taken into account by the authors.</p> <p>It is necessary to check the grammar and spelling of some words, specifically technical words prior to publication.</p>	<p>Amended</p> <p>Revised</p>
<b>Optional/General</b> comments	<p>Overall, this is a good work that is worth of publication.</p>	<p>Thanks</p>

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
