Title of the Manuscript:	Unilateral giant bullous emphysem; Vanishing lung syndrome
Type of the Article	Case study

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijmpcr.com/index.php/IJMPCR/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The manuscript has some grammar and spelling errors that should be corrected such as the word "emphysema" was spelled as "emphysem" even in the title. The "Discussion" section is too short and does not connect the "Case" to the "Conclusion" and thus impairs the general integrity of the manuscript. I believe the authors should "discuss" this case more.	The grammatical errors of the article have been revised. The discussion section has been updated.
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	I would like to congratulate the authors for the successful bullectomy operation.	Thank you so much

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
