### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijmpcr.com/index.php/IJMPCR/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	Spelling & grammar mistakes, even in the heading. Attached is the correction in the manuscript word document.	The article has been revised in terms of grammar
<b><u>Minor</u></b> REVISION comments	No comments	
<b><u>Optional/General</u></b> comments	<b>The author wrote :</b> <b>Consent and Ethical Approval</b> As per international standard or university standard written ethical approval has been collected and preserved by the author(s).  <b>Comment: usually ethical approval is done by an ethical committee in XX university or hospital with a number &amp; date.</b>	Yes, since the article is a single case report, written consent was obtained by the patient himself, not an ethics committee approval. Ethics committee application are made in large / multibl cases study.

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
