PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | The introduction is nor written well. It lacks detail information on previously findings, research gab and how the current study will address this gab. The methods and material section are poorly presented. Thus, major modification is required (please refer detail comments and suggestion from mother document). Result presentation is not clear and it important findings were not included. For example, contribution of each descriptor for each PCA Dendrogram tree, Noting is discussed here not the author should include the discussion Revision is needed for conclusion based on your key finding The reference is outdated the author should update as there is many recent research reports on the same title conducted especially from India | All the suggested comments agreed and being modified in the mother document in all the section mentioned. Dendrogram was additionally included for kind perusal |
| Minor REVISION comments | Typographical error, | Typographic mistakes corrected |
| Optional/General comments | The manuscript provided useful information. However, major modification are required before a possible publication. Otherwise, it diminishes the quality of the journal and may not get sufficient reader | The mother document modified with all the comments mentioned |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
