Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Apart from Genetic Stability of TGMS Hybrids in Dry Direct Seeded Rice, what are your major contributions to knowledge? Improve on your abstract. Insert 5 keywords</p> <p>More recent references need to be cited. Indicate pictorial view and map of the study area.</p> <p>Improve on your methodology. Why do you adopt the materials that entailed 41 TGMS based hybrids and nine checks (CMS hybrids)?</p> <p>Insert tables inside manuscript not after conclusion and references. All tables and figures must be referred to and discussed properly. Put references instead of "cited literatures". Improve on the discussion of your results.</p> <p>Research like this requires recommendations for further studies. I discovered that there is no recommendation for your work.</p> <p>Proof read your work properly. Remove all grammatical and editorial errors. All equations, figures and plates must be checked. Literature review is inadequate.</p> <p>Kindly rewrite your abstract and conclusion for better understanding and in depth study. Disregard general statement. Let it reflect your findings and cogent contribution to knowledge. This will enhance visibility of your work after publication.</p> <p><i>Adhere strictly to</i> International Journal of Plant & Soil Science journal guidelines for all sections of your paper</p>	<p>Agreed. The chances were highlighted in the abstract. And 5 keywords have been added.</p> <p>Recent references were updated and The pictorial view of the study area is given in Fig.1</p> <p>Methodology was revised and details of parents were added in the materials and highlighted.</p> <p>All the tables and figures were inserted inside the manuscript and referred properly.</p> <p>Recommendations were added in results and conclusion</p> <p>Manuscript was proof read and corrections were carried out.</p> <p>More literatures were added</p> <p>More points were added in abstract and conclusion.</p> <p>Format edited as per journal norms.</p>
<u>Minor</u> REVISION comments	<p>Some literatures cited were not listed. Cite more recent references. Kindly check through, cite and list all your references properly. References are inadequate, cite and use recent references between 2011-2021</p>	<p>All the references were checked again and recent reference were added and highlighted.</p>
<u>Optional/General</u> comments	<p>Provide source of all your tables and figures. There is no acknowledgment.</p>	<p>All the tables and figures were originally produced by the authors hence no acknowledgement is required.</p>
