

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_82960
Title of the Manuscript:	Effect of antioxidants, culture conditions and frequency of subculture to control phenols during in vitro culture of Phalaenopsis hybrid cultivar Oriana
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	The paper does analyse in a systematic manner the effects of different antioxidants on media browning in Phalaenopsis spp. Cv. Oriana. But, I consider the results as preliminary ones, that some data could be better presented in a graphical form and not big tables, that introduction could be improved by finding new references since there are actual references in the literature, and include recent literature. So, I am asking for an extensive revision of the MS. I did also some corrections and comments on the manuscript! English has to be also improved.	Noted
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	The article presents somehow preliminary results which can be published after a thorough revision of the manuscript.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
